

Note:
 Zone of Theoretical Visibility has been generated using Ordnance Survey Terrain 5 digital terrain model which does not take into account the screening effects of vegetation, buildings or other structures. Woodland from the Forestry Commission National Forest Inventory (2018) with an assumed height of 15m, building height data from OS MasterMap and buildings from OS Open with an assumed height of 7.5m have been incorporated into the DTM.

The ZTV is based upon a grid of points spaced 50m apart within the required Works Areas. The development height has been assumed as below:
 - 35m above ground level for Work No. 1
 - 15m above ground level for Work Nos. 2 & 3
 - 20m above ground level for Work Nos. 5 & 7
 All heights are Above Ordnance Datum.

The development areas are taken from drawings "West Plot Perimeter Boundary Immingham NH3 Terminal Immingham" and "East Plot Perimeter Boundary Immingham NH3 Terminal Immingham" by Air Products and Chemicals Inc.

LEGEND

- Site Boundary
- Viewpoint Location
- Public Right of Way (PRoW)
- OS Mastermap Building - Varying Heights
- OS Open Building - 7.5m
- Vegetation (National Forest Inventory) - 15m
- Zone of Theoretical Visibility
